

# Expand your benefits, not your budget

## Discover Colonial Life's Benefits Booster

Your budget may be growing tighter, but your employees still expect a robust benefits package. Let us help you satisfy both needs – with our Benefits Booster program.

### This program provides benefits you can offer to your employees – at no additional cost to you:

- **Group and individual voluntary benefits**  
Our full line of employee-paid voluntary benefits can help offset your employees' out-of-pocket expenses and provide them additional protection, where they need it.
- **Free health and wellness discount card**  
The WellCard discount program<sup>1</sup> can help you provide your employees affordable access to wellness services and products such as pharmacies, a 24/7 doctor consult service, dental, hearing and vision care, LASIK and more.
- **Complimentary accidental death and dismemberment insurance**  
Employees can register for \$5,000 of complimentary AD&D insurance<sup>2</sup> simply for participating in a 1-to-1 benefits counseling session with a Colonial Life benefits counselor. And if they choose to register, we'll provide their AD&D certificate and ID card at that time. No purchase necessary.
- **The added value of benefits communication**  
During our onsite benefits counseling sessions, we'll sit down with your employees and review your core benefits as well as the voluntary benefits you're making available to them. We'll also handle enrollment for you.

You don't have to choose between your benefits and your bottom line.

Call your Colonial Life benefits counselor today to learn more and set up your enrollment.

<sup>1</sup> WellCard program not available in AK, MT, VT. This discount program is powered by AccessOne Consumer Health, Inc., 84 Villa Rd, Greenville, S.C. 29615, [www.accessonedmpo.com](http://www.accessonedmpo.com). This is not a Part D Medicare prescription drug program. This is not insurance and is not intended to replace insurance. Discounts are only available at participating pharmacies and providers. Payment must be made at the time of service to receive discounts from participating providers. Void where prohibited by law.

<sup>2</sup> Accidental Death and Dismemberment insurance coverage provided by Federal Insurance Company, a member insurer of the Chubb Group of Insurance. This coverage may not be available in all states. Complimentary AD&D coverage will be effective for 12 months from the employees' date of enrollment. Subject to availability, employees may choose to continue coverage by meeting with their Colonial Life benefits representative at the following year's enrollment.

# Offer 24/7 health care access for your employees

There's a simple way to expand your benefits package and give your employees better access to medical care.

In association with MDLIVE®, Colonial Life can help you provide an easier form of doctor visits for your employees — virtual care. This service is available at no direct cost to you or them for the first year following the enrollment.\*

## Our service solution

While not intended to replace a primary care doctor, MDLIVE gives your employees 24/7 access to board-certified doctors, where it's most convenient for them. With more than 20 million members, MDLIVE is one of the nation's largest virtual care networks with state-licensed physicians averaging 15 years of practice experience.

After registering, your employees can have a virtual consult to diagnose non-emergency medical issues over the phone or through secure video on their computer, tablet or the MDLIVE Mobile App. When a medical condition calls for a prescription, MDLIVE doctors can send an e-prescription straight to the patient's local pharmacy of choice (restrictions apply).

Your employees can gain one year of access at no charge by simply participating in a 1-to-1 benefits counseling session with a Colonial Life representative.\* No purchase is necessary.

## Improving employee care just got easier

Making MDLIVE part of your overall benefits offering is an easy way to show your employees you care about their access to medical care. It can also help decrease employee absenteeism and increase productivity — while helping lower health care costs for your business.

### Here are some of the common conditions that can be treated:

- Allergies
- Asthma
- Bronchitis
- Cold and flu
- Ear infections
- Fever
- Headache
- Joint aches
- Respiratory infections
- Sinus infections
- Skin infections
- Urinary tract infections

MDLIVE also offers pediatric care.
